

Little Darling (At My Window Sad And Lonely)

Woody Guthrie

...Breast

Who is gonna talk your future over
While I'm ramblin' in the west
At my window sad and lonely
Often do I think of thee
And I wonder little darling
If you ever think of me

You will meet with many faces
Some will tell you I'm not true
Please remember little darling
No one loves you like I do

At my window sad and lonely
Often do I think of thee
And I wonder little darling
If you ever think of me

At my window sad and lonely
Often do I think of thee
And I wonder little darling
If you ever think of me

Who's gonna hold you to that... darling
Who's gonna hold you to their breast
Who is gonna talk your future over
While I'm ramblin' in the west
At my window sad and lonely
Often do I think of thee
And I wonder little darling
If you ever think of me
