

## More Pretty Girls Than One

Woody Guthrie

There's more pretty girls than one  
More pretty girls than one  
Every town I rambled around  
More pretty girls than one

Look down that railroad line  
See the train rolled by  
Train rolls by with a woman I love  
And I hung my head and cried

More pretty girls than one  
More pretty girls than one  
Every town I rambled around  
More pretty girls than one

Look out across that sea  
See the breakers swell  
How many a love is washed away  
No human tongue can tell

There's more pretty girls than one  
There's more pretty girls than one  
Every town I rambled around  
More pretty girls than one

There's more pretty girls than one  
There's more pretty girls than one  
Every town I rambled around  
More pretty girls than one
