WOODZ

I saw a star fly the sky today
Wonder if you seen it too
You feel so close but so far away
I'm missin' you

Call me selfish
I don't mind
I want all your time tonight

LA where you be at
Night time in Korea
But you brighten up my sky

Me and you
One on one
Wanna spend time with you girl
I will fly
Cross the sky
To be next to you Yea

Wanna be by your side
Let the world know you're mine
I love you a million time
Lovin' you multiplied

Baby it's you
That makes me wanna, wanna settle down
It's you that makes my feet lift off the ground
I love you a million times
Lovin' you multiplied

Baby I
Apologize and girl I get it Yea
Lemme catch a flight

Baby I
Sympathize
Ooh girl I get it. Yea

Need me closer by your side
Not just on the line
I don't want no other girl I put that on my life
You're a real one
Sho nuff
You deserve the world and more
I can give you that for sure

Me and you
One on one
Wanna spend time with you girl
I will fly
Cross the sky
To be next to you wanna baby

Wanna be by your side
Let the world know you're mine
I love you a million time

Lovin' you multiplied

Baby it's you
That makes me wanna, wanna settle down
It's you that makes my feet lift off the ground
I love you a million times
Lovin' you multiplied

Baby when the stars align
It will be just you and I
We'll do whatever we do
Do whatever we do

Wanna be by your side
Let the world know you're mine
I love you a million time
Lovin' you multiplied

Baby it's you
That makes me wanna, wanna settle down
It's you that makes my feet lift off the ground
I love you a million times

Lovin' you multiplied
