

# Found You

Woosung

I found you  
Lost between those walls  
Where it says I was born to die with you  
I never knew that life could be so cruel  
I'm sorry I can't undo

I think I love you  
So much that I can't move  
You're from out of space  
But I can't be sure unless I stay

Till I stay here  
For a lifetime  
For a hundred million years  
I was just lying in a bedroom  
Trying to find you on my own

I always thought the devil played nice  
I'll never walk like Jesus Christ  
I never believed in magic  
Believed in magic  
Believed, believed, believed

I think I love you  
So much that I can't move  
You're from out of space  
But I can't be sure unless I stay

I broke myself in two  
A million pieces, ooo  
Sorry I couldn't see the lights that were right in front of me

Till I found you
