

Let There Be Light

Woosung

Your voice is calling from the other side
Got me spinning in the shining light
I don't wanna stay another night
Said I wanna live a different life

You taught me how to open up my eye
Heat the feeling that I have inside
Can you teach me how to stop the time
Yeah, I'll do anything to make it right

So let there be light
So let there be light
Just let there be light
Hope we'll be alright

Your voice is calling from the other side
Got me spinning in the shining light
I don't wanna stay another night
Said I wanna live a different life

You taught me how to open up my eye
Heat the feeling that I have inside
Can you teach me how to stop the time
Yeah, I'll do anything to make it right

So let there be light
So let there be light
Just let there be light
Hope we'll be alright
