

# Never Let Go

Woosung

Your touch is so alarming  
It sirens in my soul  
Our spark ignites the warning  
It's time for us to go

'Cause now you got me longing, longing  
I'm longing for you  
I need you to promise, promise

Tell me that you'll never let go  
Don't go, even when the sun drops low  
So low, when the summer turns to snow  
So cold, promise me you'll never let go

Tell me that you'll never let go  
Don't go, you're the only place called home  
I know if I ever lose control  
Just hold onto me and never let go

The way you move is healing  
You shine bright like a star  
I'm running out of reasons  
To hold back anymore

'Cause now you got me longing, longing  
I'm longing for you  
I need you to promise, promise

Tell me that you'll never let go  
Don't go, even when the sun drops low  
So low, when the summer turns to snow  
So cold, promise me you'll never let go

Tell me that you'll never let go  
Don't go, you're the only place called home  
I know, if I ever lose control  
Just hold onto me and never let go  
Tell me that you'll never let go
