

All The Love That's Wasted

World Party

And I will look behind the veil
At all the love that's wasted
There's something wrong, I don't belong
Is it me or the world that's wasted?

You, you're in everything I do
And I love to love you
You're in every word I say
I can't get away, oh no
I need to know
If we can grow
So we will know
The way of love

'Cause you and I could light a fire
With all the love we've wasted
But if today brings bitter fruit
Still I won't be late for tomorrow

You, you're in everything I do
And my love surrounds you
You're in every word I say
I can't get away, oh no
I want you so
I need to know
If we will know
The way of love

There's so much love that's wasted

You get high
You get low
You think you're in trouble
And your mind's gonna blow

And you and I could light a fire
With all the love that's wasted
'Cause there's so much love that's wasted
Yes there's so much love that's wasted...
