Here Comes the Future

World Party

Keep telling myself that it don't have to be this way.
Yeah, I'm talking about life and everything that we do today.
I'm not falling for the same old lies that I did before.
I'm just telling you now so you know why I'm out that door.

Here comes the future,
I hope that you can, I hope that you can work it out.
Here comes the future,
I hope that you can work it out.

Don't want to do nothing that I did before.
Deep down in my heart I know what I'm down here for.
I'm in heaven when you smile and when we feel this way.
Keep telling myself that I'm just going to live for today.

Cos' here comes the future.
I hope that you can, I hope that you can work it out.
Here comes the future,
I hope that you can work it out.
Mmm work it out, yeah.

I keep telling myself that it's not going to be the same.
Keep telling myself that it's not going to be the same, love.
Keep telling myself that it don't have to be the same.
Keep telling myself we can work it out.

Like we did beofre.
You got to give me some loving so I just don't want no more.
I can't help myself when I know that I can feel this way.
I been feeling very on so I just kinda wanted to say,
That here comes the future.

You and me together equals so much possibility,
Really see that we can make it through the hard times.
Where we draw lines, and we can't find the feeling that we share.
That brought us there to the place that we grow,
All the future has to show, and what I wanna know
Is that we can work it out, learn what its all about,
Bring the sun through the clouds and make each other smile.
We can make it happen,
Tapping into the future.

We can make it happen
Just you wait and see
We can make it happen
We can work it out
rpt.

Here comes the future,
I hope that you can, I hope that you can work it out.
Here comes the future,
I hope that you can work it,
Work it out.
rpt.

Many times I've been this way,
Many times I've been lonely,

Many times I've been hurting inside.
When I feel this way,
Don't you know that you can work it,
Work it out.
