

# Nothing Lasts Forever

World Party

Lookin' after you-know-what with you-know-who  
Waitin' up 'til god-knows-when and who knows what to do

Hoping you'll be over the moon  
Hoping that it's sometime soon  
Watchin' all the you-know-whats with you-know-who

And it won't last forever  
Let's live it all together  
Cause nothing lasts forever  
Let's live it all together

Hoping you'll be over the moon  
Hoping that it's sometime soon  
Take me back to who-knows-where  
To meet with you-know-who

Talkin' about way-back-when rather than the new  
Thinking about whats-her-name  
There was nothin' I could do

Tell me all about that thing  
Pickin' up on just one ring  
Take me back to you-know-when  
To meet with you-know-who

And it won't last forever  
Let's live it all together  
Cause nothing lasts forever  
Let's live it all together

Hoping you'll be over the moon  
Hoping that it's sometime soon  
Take me back to who-knows-where  
To meet with you-know-who

To meet with you-know-who  
To meet with you-know-who  
To meet with you-know-who

(Nothing lasts forever)  
(Nothing lasts forever)  
(Nothing lasts forever)
