

Oh and on and on  
With the feeling so strong  
Holding back how I feel  
I hope that one day  
Maybe you'll say  
I will be yours forever

I know what they say  
It doesn't happen this way  
Maybe it's true  
Has it happened to you  
Hoping that you'll find the chance to  
Open up your mind you need to  
Let your feelings grow, oh baby

I know that, wherever you are oh baby  
I know that, it won't be too far I hope that  
You can feel it, open your heart oh baby  
I know, I know, I knew from the start

Don't wait too long  
You won't get me wrong  
I need your love now  
Holding you close  
It was more than you know  
Easy to see  
Everything we could be  
Hoping that you'll find the chance to  
Open up your mind, you need to  
Let your feelings grow, oh baby

I know that, wherever you are oh baby  
I know that, it won't be too far I hope that  
You can feel it, open your heart oh baby  
I know, I know, I knew from the start

You know, I'm the one who wants you  
Making plans to spend our lives together  
You know, always thinking about you  
I don't know if i can live without you

I know that, wherever you are oh baby  
I know that, it won't be too far I hope that  
You can feel it, open your heart oh baby  
I know, I know, I knew from the start  
...
