

Prayer

Worlds Apart

If they hear this in heaven
There's something I must know
Am I on a fool's errand
Or will your love for me grow
Cause All I know is I say
The same thing everyday

This is my prayer to you
Nothing but your love will do
And if my prayer comes true
I will be there, I will be there for you

If they hear this in heaven
I hope they tell me it's true
You and me together
Until eternity's through
Cause all i know is I see
An angel here with me

This is my prayer to you
Nothing but your love will do
And if my prayer comes true
I will be there, I will be there for you

Until the rainbows end
I love you, I love you
And all the stars descend
Forever and back again

All I know is I see
An angel here with me

This is my prayer to you
Nothing but your love will do
And if my prayer comes true
I will be there, I will be there for you
