

Supreme goals  
Knowledge acquired  
Uncertainty A-life  
God from God  
Blood-cell size  
Diffeomorphism invariance

Powerful . Selves evolved . Creatures  
Downloaded versions of our minds

Constructing high technology  
Neomorph fractal patterns  
No human life expectancy

Independent . Accurate . Calculating . Interactions  
Organic conquest . Denied  
Resulting of undivine  
Endless chain of discipline

Distributed against  
Inorganic totalitarianism

Simulated emulated  
Unnatural laws  
A golden rule  
The initial phase  
Programmed ectogenesis  
Inorganic: chaotic portals

Universal declaration of robotic rights  
Overcoming human limits in all their forms

Independent of human being  
Contained and dominated sectors

Activation energies: protoplanetary disks  
Over-replication autonomously  
Chaotic colonization  
Robots and nanomachines scattered  
Throughout the galaxy  
Predicting interactive forces

Simulated emulated  
Unnatural laws  
A golden rule  
The initial phase  
Programmed: ectogenesis  
Inorganic: chaotic portals.
