

## God's in His Heaven

Wormrot

Crashed down, dead inside  
Soulless, ready to die  
Somehow the contentment I felt  
Lifted me to ignore death's fucking ride

Placid fades, came crashing down  
Kept asking myself why

Why is this happening to me  
My life came crumbling down just when  
I thought everything will be just fine  
I understand but it just had to happen  
My life, my sentence, my path, my goddamn grave

Impotent  
Powerless
