

## One Round Away

Wormrot

You just need to get a grip  
Feel the cold sweat pouring down  
One round away in your face  
Exaggerated explosive, killing all humanity  
Spend the day in f\*\*king misery  
Fuck this shit just pull the trigger now

Deafening and suffering, death  
Back blast has ruptured my brain

One round away, back blast clear  
We do not mess with this bullshit
