

Take Aim

Wormrot

Can't you see the enemy within?

Standing right in front of you
The ones that drive you fucking insane
Open your eyes and really see
Who's your real friends enemies

Take aim
Locked in
Triggered, headshot

Fuck you bastards that got in our way
Disrupting friendships, scum in a closer range

Die you bastards, deserve every pain
Here's one for all, I'll take you to your fucking grave

Be fucking gone
