

## Touch the Stars

Wouter Hamel

If only I could touch the stars If only I could find a way out  
of this bar There's a world out there, it's vicious and it's co  
ld If only I could find a someone I could hold

If only you could bear my son If only we could find a place whe  
re freedom's won There's a star up there, she's vicious but she  
's old If only I could find a someone I could hold

Won't you get a little closer Won't you waste a little time Get  
a little closer to this lonely heart of mine

I was made to love you dear You were made to disappear I was ma  
de to hold the gun And you were made to shine If only I could t  
ouch the stars And find a way out of this bar I only I could fi  
nd someone to hold

If only I could touch the stars If only I could find a way out  
of this bar There's a world out there, it's vicious and it's co  
ld If only I could find a someone I could hold Oh if only I cou  
ld find someone to hold Oh if only I could find someone to hold
