

When Morning Comes

Wouter Hamel

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around

I'll keep your picture by my side
no more secrets left to hide
Let's escape, let's do it soon
run away when it's full moon

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around

I've left a note on my front door
won't be coming back no more
Packed my suitcase, my guitars
I'll be here beneath the stars

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around

Comes around...
Comes around...
Comes around...
Comes around...

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around

When morning comes, I know you'll be there
When morning comes around
Just hold my hand and follow me there
When morning comes around
