first winter

Wrabel

It's getting cold in California
Getting colder in New York
And everybody's hanging lights up
Everybody 'round the world

Oh, this year, I don't feel quite like I used to
December came, something changed
Guess my wish came true
Just like home, not alone
Winter's not so blue
My first winter with you

Another chair around the table
Another gift under the tree
Another song about the season
But they all sound new to me

Oh, this year, I don't feel quite like I used to
December came, something changed
Guess my wish came true
Just like home, not alone
Winter's not so blue
My first winter with you

Ooh, ooh
Ooh, ooh

Oh, this year, I don't feel quite like I used to
December came, something changed
Guess my wish came true
Just like home, not alone
Winter's not so blue
My first winter with you
