

## future

Wrabel

Love is patient  
Love is kind  
It's the purpose, it's the reason, it's the rhyme  
Life is precious  
This I've learned  
All the nights I could've died before my turn

Then you came in, and I've never been the same

So don't look back  
There's no point in that  
Forget the past  
And we could build a future  
Ohh ohhh mmm

Pulled me out of bitter cold  
Like a fire, lit the pilot in my soul  
Silver lining made of gold  
Now I'm smiling, and everybody knows

'Cause you came in, and I've never been the same

So don't look back  
There's no point in that  
Forget the past  
And we could build a future

Could it be true  
That everything I ever lost  
Was just to lead me

Here to you  
I'd lose it all  
I'd lose it all  
I'd lose it all  
I'd lose it all  
I'd lose it all again

So don't look back  
There's no point in that  
Forget the past  
And we could build a future
