

greener

Wrabel

Morning light coming through the window
Dancing on your shoulder
Scared of dying when this is life
Hoping we can grow much older

Oh, I used to wonder
If it's really greener
I don't wanna know now

I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now

Got this thing you do when you're laughing
How you throw your head back
I would spend the rest of my life trying
To make you feel like that

Oh, I used to wonder
If it's really greener
I don't wanna know now

I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now
I don't wanna know now
