

if all is lost

Wrabel

A bird can fly
Without a place to go
Without a hand to hold
Up so high
Leaves everything below
With everything I've ever known

I can see the seasons are changing
I can see the tops of the buildings
If the stars don't come out tonight

Let's just say we tried our best
If all is lost
If all is lost
Pick back up and count to ten
If all is lost
If all is lost
A beginning marks the end
Start over, start again

The world is round
We'll never reach the end
They have the evidence
Life repeats
Though some of this is doomed
We couldn't make the flowers bloom

I can see the seasons are changing
I can see the tops of the buildings
If the stars don't come out tonight

Let's just say we tried our best
If all is lost
If all is lost
Pick back up and count to ten
If all is lost
If all is lost
A beginning marks the end
Start over, start again

Start again
Again
