Wrabel

I know right where this is goin'
Right back to the point of knowin'
Nothin' more than what we want, yeah
And I don't think that I can go there
Again, and again, 'cause there's just nowhere
On a planet where we were no more

'Cause you and me could only be
In make-believe, in fantasy, yeah
I know it's true, but I
I still want you

Whoa-oh
Yeah, yeah

And every time I think I'm past you
I always end up comin' back to
Where we were, where we could be, yeah
And I know is where we endin'
When either side can call it winnin'
But maybe this is where we leave off, yeah

'Cause you and me could only be
In make-believe, in fantasy, yeah
I know it's true, but I
I still want you
And we could only make it work
On Jupiter, not on this earth
I know it's true, but I
I still want you, yeah

I still want you, I still want you
I still want you, on
Jupiter, on
Jupiter, yeah
I still want you, I still want you
I still want you, on
Jupiter, on
Jupiter, yeah

If I could fly away, yeah
To Jupiter
I'd leave without a thing, yeah
'Cause you know and I know
That I love you, whoa-whoa
But I don't know what's happenin'

Yeah-yeah
Whoa-oh-oh

'Cause you and me could only be
In make-believe, in fantasy, yeah
I know it's true, but I
I still want you
And we could only make it work
On Jupiter, not on this earth
I know it's true, but I

I still want you, yeah

I still want you, I still want you

I still want you, on

Jupiter, on

Jupiter, yeah

I still want you, I still want you

I still want you, on

Jupiter, on

Jupiter, oh, yeah

Whoa-oh

No, no
