the real thing

Wrabel

This could be the real thing
If we let it
This could be the real thing
The real thing

You and me babe had a really long drive
Falling asleep on the passenger side
When we get home will you hold me close?
Eye to eye and nose to nose

This could be the real thing
If we let it
This could be the real thing
If we don't fuck it up
By overthinking
If we let it
This could be the real thing
The real thing

I swear I know God when you're touching me
So keep the lights on 'cause I wanna see
You make me strong but you make me weak
You give me life but you're killing me

This could be the real thing
If we let it
This could be the real thing
If we don't fuck it up
By overthinking
If we let it
This could be the real thing
The real thing

This could be the real thing
If we let it
This could be the real thing
The real thing
This could be the real thing
If we don't fuck it up
It'd be the real thing
The real thing
