

this christmas

Wrabel

Last year was the hardest year of my life
Haven't felt no cheer in a while
Feel it getting cold and I start to hope
That Santa Claus brings me some luck
Last year was the hardest year of my life

So hey, what you doing?
Where you going? For the holidays
Whoever you are, wherever you are
This Christmas

Grab somebody you love, make a wish on a star
See the lights in the dark, this Christmas
And when you go to sleep, hope whatever you need
Shows up on the tree, this Christmas

It's gonna be brighter, this Christmas
It's gonna be brighter

Can't fall asleep so I stay awake
Reminding me when I was a kid
Staying up till Christmas day
See the mistletoe and I start to hope
That Santa Clause brings me some love

Whoever you are, wherever you are
This Christmas

Grab somebody you love, make a wish on a star
See the lights in the dark, this Christmas
And when you go to sleep, hope whatever you need
Shows up on the tree, this Christmas

It's gonna be brighter, this Christmas
It's gonna be brighter

Hey, what you doing? Where you going?
For the holidays
Whoever you are, wherever you are

Grab somebody you love, make a wish on a star
See the lights in the dark
And when you go to sleep, hope whatever you need
Shows up on the tree, this Christmas

Grab somebody you love, make a wish on a star
See the lights in the dark, this Christmas
And when you go to sleep, hope whatever you need
Shows up on the tree, this Christmas

It's gonna be brighter, this Christmas
It's gonna be brighter
