On the track Hazardis Soundz, SP Killa

Familia!

We bout to hop on a tour bus

For two months straight so don't even try to ignore us

I'm bout to pick up my pace

Bendicion

Give a blessing everywhere we stepping

We speak tongues

So just decode or be done

I need a blessing for family

Especially my twin sons

The family is where I can't be

They hold me down when we run

No blessing for those that'll damn me

We don't bite on our tongues

I'll let you know just what I can't be

So don't be surprised when we're done

Tomorrow's the first show of the fifth tour

With the Tech Nine and the sick four

Actually now just three of us

We still hold it down like a rickshaw

If they criticize eat a dick whore

Epitomizing piss poor

Not to minimize what you live for

But I'm energized for the next war

Ducking crabs in a stew pot

Fresh back from the Bmore

All these rappers trying to doo wop

Feeling stranded on the sea floor

I'm about to tap into 2Pac

Attitude on Ybor

I got a taste that is too hot

So what you biting off of me for

Hands down all these damn clowns got a bad sound no damn style

Got my member all swollen now I'm feeling like a mad child

Kiddie rappers act mad wild

Speaking reckless bout the fam now

Y'all let these goons act out

Too late to get them to back down

I'm getting better and better

And still now more betterer betterer

Killing shows and killing flows you know etcetera etcetera

They talk a lot shit about guns funds and how they be killing man

But they just junkies kicking xan all they can do is kilogram

We up on stage and with the fans

They underrate us in the scan

Come and get faded with the fam

All for the sake of living grand

I been just phasing with the band

Playing these places in the land

So many faces in the stands

I'mma get wasted trying to stand
So come and just get with the musical murderers
Coming from to state to state and city to city
We're In it for serving ya
Music my love and I murder her
Bring her right back to the furtherer
It goes up tour starts right now please pack up the perjurers
