

# Black Magic City

Wrekonize

I been drinking all day long rolling out with a box of songs  
Welcome to the terror dome bitch  
Always knew I was destined to go on  
For so long everything feelin so wrong they been telling me to go strong  
And flow on and so on and so on  
And so on  
In a city so magic where we all got vicious habits  
This life will turn a baptist into an average addict  
It's So tragic but I love me some 3 0 fifth  
Where you go for the weekend come back home and they telling you to plead th  
e fifth  
Lambos rent out for like 7 days  
Go hard like Rambo then come back and exchange for the Chevrolet  
You want sunshine we gotta bit of that and ass to match  
First time I was on the beach I nearly fell to my knees had an asthma attack  
Here in the city we pride in the best of nightlife  
You got curfews we got work through to the morning we seeing the bright ligh  
ts  
And that's an everyday thang  
Round here it's reg-u-lar  
To leave out with an exit scar  
Face down in the best of bars  
Somebody pick up my tab I'll get ya the next time  
You know I'm good for it you know what it is Wreks mind  
I gotta have it I'm foaming out of the mouth I'm rabid  
I could let the whole world just vanish in a city so magic

And it seems like magic  
Black Magic City  
And it seems like magic  
Black Magic City  
And it seems like magic  
Black Magic City  
And it seems like magic  
Do you believe in sex drugs rock and roll all in my black magic city

It's LAX lavish latins and blacks ratchet  
Pale bitches tanning on beaches  
And that's that Kate Blanchet  
Police copters chase dope dealers and that's traffic  
Pornographic stars strut in starbucks  
It's that classic  
Bright lights luxe cars  
These chicks don't date regular dudes  
They only fuck stars  
Top model pop bottle  
Casting couches I love her  
Prettiest girls in America  
Come her to get discovered  
Some get discouraged quit bar tending  
And start stripping  
Beverly hills mansion party that's where they start sniffing  
My city quake halos and volcanos  
St. monica st. pedro  
We lost angels  
Coked up rich kids corporate big wigs  
Movie producers and actors

She from a small town with them tractors  
So now she ain't trying to go backwards  
We on red carpets with the athletes  
And them pop stars and them rappers  
We like vip in them backseats papparazzi follow with cameras  
She got a nose job and them new lips and them huge tits do attract ya  
Had no ass took kadashian  
Got back like abracadabra  
See the celtics believed that the holly tree had magical properties  
Bad or good  
So witches made magic wands out of holly  
And that's why our city named Hollywood

And it seems like magic  
Black Magic City  
And it seems like magic  
Black Magic City  
And it seems like magic  
Black Magic City  
And it seems like magic  
Do you believe in sex drugs rock and roll all in my black magic city
