

# Can't Be Alone

Wrekonize

Ha, ha  
Uh-huh  
It's kinda strange ain't it?  
Feel that separation?  
Don't know how to feel

I've been on this rock now too damn long  
I never thought I'd feel so far away  
I'm seeing everything you do all day long  
Reading everything you've got to say  
You never even gave me a chance to miss you  
I see you out sharing everything you've got  
We really need to disconnect the picture  
I'll tell you that there's one thing for sure I'm not (I'm not)

I can't be alone, can't be alone, can't be alone  
I never knew a world so big could feel so close  
I can't be alone, am I alone? Leave me alone!  
I've got all these numbers that I never call on my phone  
Don't leave me alone, don't leave me alone  
Don't leave me alone, don't leave me alone  
Ah-ah

I've been drinking at this bar now too damn long  
I always knew the J.D. would be my friend  
That's probably why I'm always singing drunken songs  
I hear 'em say "Look Wrek's at it again"  
They take pics and post 'em  
I pull the Dylan, follow 'Clef too close son  
If you need to watch me bleed, I guess that's cool  
But take a break from the sharing you do  
Lord knows that I need one too  
The whole world's gone mad and it's sad but true  
That I've grown to be such a recluse

I can't be alone, can't be alone, can't be alone  
I never knew a world so big could feel so close  
I can't be alone, am I alone? Leave me alone!  
I've got all these numbers that I never call on my phone  
Don't leave me alone, don't leave me alone  
Don't leave me alone, don't leave me alone  
Ah-ah

Just need some time  
You still there?  
Wait now  
Nah, nah, nah  
Come back, come back, come back

Check status of all the baddest  
Ratchets on the atlas, using an apparatus  
They can get at us through the line they tappin'  
Since I know my quirks and bad habits  
What you need a camera for?  
Need a minute, need a second, instagram or more  
Nothing to say hey, but runnin and play lame  
And snap snap another it's capture from the playpen

"Mikey likes it"

Well if you knew how the kid felt then you might be psychic

Everybody workin' for the paparazzo

I report nothin' cause the block been hot sooooo

Everybody cameras down

Look me right up in the eyes and I'mma hand it round

Set 'em up right now when I be puttin' the mic down

To have some words with you cause the future is now

I couldn't tell you this on the phone

You needed to know no matter where you are that we are not alone
