

# FREE WAY

Wrekonize

Yeah

Get me back out on the freeway  
Locked down feeling like a keepsake  
Living in they pocket  
They just using me to feel safe  
Ill place to be waking up in I need real space  
Back the hell up off me lemme go lemme speed on the freeway (yeah, uh huh)  
I feel like I'm flying super high when I'm riding on the freeway (yeah)  
Can't nobody ever tell me nothing when I'm running down the freeway (nah)  
They tried to lock me down to the ground but I'm out on the freeway  
Yeah, I'm living life the free way the free way ay ay

I was locked down to the basement feeling like a basehead  
Doing anything I could to pay rent knave shit  
Slave to the wage shit log in to the matrix  
When I should be flying over problems in a spaceship  
They been trying to keep me here  
I been trying to shape shift  
Access denied I'm supplied with the late shift  
You may recognize that I'm alive cuz I made sense  
Of everything for what it was and aimed to be great since  
I'm rolling to manage a golden advantage  
For all my people going bananas  
I'm holding the baggage and throwing down a  
Pole in the sand that's been showing you how to  
Get going and go home to your Family's yeah (huh)  
I got friends still on a lockdown  
It's a sickness you do not need to dig in to your plots now  
So get this everybody time to take a ride  
You know just the place to find me when you do

Get me back out on the freeway  
Locked down feeling like a keepsake  
Living in they pocket  
They just using me to feel safe  
Ill place to be waking up in I need real space  
Back the hell up off me lemme go lemme speed on the freeway (yeah, uh huh)  
I feel like I'm flying super high when I'm riding on the freeway (yeah)

I was locked down to a desk job feeling like a mess I'm  
Looking for a place to go and shake off all this stress ma  
They been on some bullshit they been on my neck long  
I been trying to breathe they just bleed me to death gone  
Don't panic my planet is spinning fine I'm  
Tripping need a minute to flip and just clear my mind  
Find peace out in the speeding I'm seeing you flying by  
Hi, leave me to devices I'm climbing into the sky high  
Dive in the street light  
95 east might bring me release like  
Pulling off the peace pipe  
Don't know defeat type  
Dream never sleep tight  
You know I been driving since Saturn was just a flea bite

Spirits up and the windows down  
I get the tempo now nothing can split them sounds yeah  
So my people it's bout time to take a ride  
You know just the place to find me when you do

Get me back out on the freeway  
Locked down feeling like a keepsake  
Living in they pocket  
They just using me to feel safe  
Ill place to be waking up in I need real space
