

Ok I'm back up in the homestead
Only for a week or so
Soaking in the moments cuz they're temporary, yeah we know
Sometimes forget it though, taking things for granted
That's the day they uproot us all for thinking that we're planted

For now I'm like Groot up in this bitch, a fly bandit
A guardian of galaxies, I'm dancing over planets
I'm a lover of the language, been that way since 80-thing
Ever since I stepped into the fray like I'm Slade and King
I gotta slay the kings to get the pay and rings
But I was never chasing things, that ain't the way I swing

Back from Canada
Three weeks off the calendar
At the bar, they snapping shots at us
Like a camera
Don't know how we manage the
Chaos and mood swings
Money comes and goes, but the trophies are true wings

I fly to the moon, bring a couple of shoe strings
Some don and some new sins
I'm bored of my two skins
I'm living in the Wreking Crew Discord
Talking with my folks direct, we on the mix floor
Other rappers too cool, mysterious-give more
Your fans are your fam, communication is piss poor

Well if you can't beat 'em, join 'em
Actually, disjoint 'em, then surpass 'em with no warnings
Battle tested, see I'm directed for relevance
My speech has been projected for Arrested Development

I pass through Tennessee, a bottle of Hennessy
Don't drink this normally, but we gon' change the recipe
Back in high school, I remember Wrek would flee
The big bad world with a girl and some ecstasy

My jaw locks, thinking of those memories
Didn't know myself, I would learn though eventually
Had some rough times on my mind when we rested Lee
Fast forward now, I'm grown and getting better steadily

This is 39 of a 50 stack
Fan or not, the man don't ever stop-you can give him that
Give him props, give him a shot, give him a fifth of Jack
Come to a show, catch the flow, after give him dap

How can you not feel this? It's still ill, intact
Are you allergic to real raps like celiac?
Have you been living in misery and just feeling trapped?
You lost your lust for life, I'll help you get it back
I'm here to help you get it back
