

## Into the (Skit)

Wrekonize

Ah, yes, yes, Mr. Miller  
Welcome back  
It's been... quite some time since our last session, no?  
It's good to have you back  
I got your phone call and I know what it is that you want  
But we're going to have to act fast  
We don't have much time  
I'm going to start the metronome now  
(Metronome starts ticking)  
Now you remember  
You feel your body's sinking, shutting down  
Shutting down completely  
Where I'm taking you this time is deeper than before  
I won't be able to reach you... once you're there  
You're sinking down now, shutting down  
I'm taking you further in there
