Here we go again  
Here we go again  
Here we go again  
I don't know how many times we gotta break out of this  
But every time we do break out  
Get any separation  
It's like you just keep coming back  
It's like no matter what I do  
I cannot shut you down  
Goddamn  
Come on

You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know  
That  
You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know

That you can offer me the time  
Anything I need and anything I wanna find  
I'm addicted; every step I take with you is listed  
Catalogued shifted  
For somebody to sit with  
Satellites bouncing off entire other planets  
Just to let me know directions to the nearest magic  
Take a couple hits then I inhale the bandwidth  
To get what I need and then it's G for me to vanish  
But you follow right along on my hip though  
Put you back then I snatch you up off of the hip slow  
Please let me be  
Please let me get a grip though  
Trying to sneak by ya quiet: passing on my tiptoes  
Inner voices digital, hoping to resist those  
Take it back, disconnect, unplug and get gone  
Man I swear that you've been on me since the get go  
But I can never shut you down and that's why I give in so

You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know  
That  
You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know

That you can offer me the globe  
Take me anywhere, anytime I wanna go  
You got me sitting here face down look at you glow  
But now you've got me out here ignoring all my folks  
We used to talk a lot but now we only do the quick type  
'Cause I've got to get back to where I'm trending and I get liked

You die sometimes but I do find  
That the right plug can bring you back so I can grind  
I want more of ya, more of ya, more of ya loving  
If I could find the right words I'd like to tell you something  
My wife gets jealous of the time we spend  
I tell her that she's paranoid, you're just a timely friend  
We get it in  
I can rule the world with you, that's a fact  
See that's just probably why I'm checking on you back to back  
And I may never stop 'cause it seems to get me round  
If my people need me, they know where to hit me now

You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know  
That  
You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know

That if I need you to come and see me  
You're never out that far  
I might as well just let you beat me  
And overreach me  
'Cause I'm a superstar  
If I need a friend to talk with or come and talk shit  
Your body can get scarred  
So that it can be me and you till the world is through  
And I can now call you my God  
"My God, my God"

You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know  
That  
You're always turning on me  
You're everywhere I go  
You never let me be me  
You just want me to know
