

Low Water

Wrekonize

Don't go drinking the water

Sycophants sipping up sentiments till it's spic and span
Get the fam get your supplies cuz shit has hit the fan
Welcome to your new vision bitch 20 20
Perfect time to see that we are out many pennies
Sea levels rising too salty to try and drink
You may think that science was the link but no iris synced
Until the day we woke up sinking in slaughter
Don't go drinking the water

I'm swimming by citizens in they tenements
Now The flooding is on and nobody's innocent
Hydration in five nations diminishing
The vibes shaking my minds breaking it's menacing
These days we finished and really should of been listening
But it's so hard to give it in when you got gold that's glistening
I'm here to tell you your sons and your daughters
Don't go drinking the water

We lived how we wanted to live now
Instead of get down we yell get down
I'm fighting for my family and my kids wow
Never thought that we'd be here looking for a drip down
The natives are thirsty
Nature is worse see she give you no mercy
You gave her the heat but ain't expect to get hotter now
Don't go drinking the water

Sycophants acting political like they give a damn
Skip the dance I never read into all your chicken scratch
Split the land trying to work me into a sicker stance
Split the man you talking turkey amino tryptophan, yeah
We followed red belly devils
They horns all sleek and they words up on a bezel
Promising the world just trying to keep us all in order

Don't go drinking the water

This like 28 days later but way greater
Plus that movie was way safer than Dade neighbors
Abuelita's on the hill with a shotgun
Guarding any little bit they have until the stock comes
You don't want it with the thirsters believe us
There ain't been talk of Jesus since we lost 2 liters
Now we watch the sun light just getting softer
Don't go drinking the water

We lived how we wanted to live now
Instead of get down we yell get down
I'm fighting for my family and my kids wow
Never thought that we'd be here looking for a drip down
The natives are thirsty
Nature is worse see she give you no mercy
You gave her the heat but ain't expect to get hotter now
Don't go drinking the water

Miami no drinking the water
Colorado no drinking the water
KC no drinking the water
We all downstream from a terrible offer
UK no drinking the water
Capetown no drinking the water
To my crew never drinking the water nah

Don't go drinking the water
