

## Separate Yourself (Skit)

Wrekonize

Yes, Mr. Miller, yes  
You're making great progress now  
That was a great session  
You came across very many, very many personal relationship points  
Applying pressure to these points is a paramount way for us to heal you going forward  
And to create a new being for yourself going forward  
I'm very, very pleased with the process  
I'm very pleased with the progress as well  
Now going forward, you know that this world is very, very keen to see you transform yourself into one of the masses  
Individualism is not the way of the world  
We do not promote that in this outside world  
But if you want to be something great, if you want to do something greater  
You have to separate yourself from the rest of the pack
