You said your drama wasn't cool
And so you helped me down like a pro
Take these other women back to school
You're something bout this one, she's got explicit rules
She knows no jealousy yeah, she's kind of different dude
Asking to come through and battle and so holla
But she loves my boobies in the way them numbers made their luck
I should have known from the way she dug violence
And taught me that her favorite song of mine is all we're...
It's kind of hard to hear the world when you're blinding back girl
That is girl from it's kicks to her curls
Met a million females, half of them do voodoo, yes
Ask you the rap holy I can fly with the coopersness
But there's exceptions to the rule and I'm about for that
Keep the crazy love when I'ma never get my voucher back
You'll be the dime stack, I seat back and be the beats
I'll be that look inside your eyes and we don't even need to speak
