

The Fallen

Wrekonize

They ain't ever met a mother fucker like me
Calculated mounds of patience wow what a hustle I lead
I'mma run an IV full of rugged type B
I'm not even sure that if they cut me I'll bleed
Preach
The congregations contemplating giving me the
Speech
That I'm hostile skating on for Satan please
Yeah it's Devils work but I'm an angel switched out kept at birth
And bred bezerk to word search yes it hurts
Cuz hell is burnt and heaven gets all the perks
Me well, Momma called me Damien
Which works out well cuz I'm living in hell as an angelic alien ay we in
2020 feeling alright
Cuz the world is dropping down to our flight
Keep lighting up and making nukes bruh
We'll bring beef to ya like a bar fight bitch please
You better get them activists or Greta Thunberg to come and get a massive gr
ip
On all this bullshit y'all been on a manic trip uh
Yeah what's it like for an Angel below ground
Do you ever wish to go back float round and say what up to your old kinfolk
now
Well, if I'm being quite honest I kinda like being here with the lawless
I ain't never fit right in with the flawless

If you get down enough you can get down with us
Came to get saved but pain never goes out of touch
Get up with the fallen, get up with the fallen
If you get down enough you can get down with us
Came to get saved but pain never goes out of touch
Get up with the fallen, get up with the fallen

So I'm sitting down here like I'm made to bathe in Satan's haven
Placed by the saint of patron lately lamens
Look at me like they behaving
Shameful slaving what we do day to day and
I been thinking bout escaping
I was never meant for this place when
They put me here that was a mistake and
They must've mixed up hell with with a days inn
Hello JC Hello Lord I'm trying to yell Hello god
They don't hear me over all the echoes odd
I coulda swore Angels had the best regards
But not me though they put me down here like I been forgotten
Like my halos fallen off rotten like I never even had a chance to be godsend
But god man I'm feeling so god damned it make me wanna climb up to the top t
hen
Start picking off all them goody got wings
Y'all probably never even ever tried to stop them, mmm
A travesty betray your own kind for his majesty
Y'all let me sit down here with the apathy
And figured you could slide by to the apogee ok
I see what the fuck is going down yeah
Nobody thought I'd ever get up out the loud depths
Never thought to ever hear this sound next
Of a cast out vet with a loud tech

They said we spose to be immortal so while the hell you go stalling
I kinda like seeing all y'all crawling come now sink down low with the fallen

If you get down enough you can get down with us
Came to get saved but pain never goes out of touch
Get up with the fallen, get up with the fallen
If you get down enough you can get down with us
Came to get saved but pain never goes out of touch
Get up with the fallen, get up with the fallen
