

Happy

Wretch 32

She ain't 5 foot 2
She be 5 foot cute
All my life since biggie ties
Been hypnotized on you
This is all I do, this is all I drew
One big house with all these windows, can you see my view
Yeah

This ain't love this is vibes, justified, justified
Kiss the floor touch the sky
Thank me Lord all my life
Still we argue some times
Who don't argue sometimes
I throw words, she throw punches
I've got barks you've got bite
Take my watch, take my chain
Take the car take a raincheck
Minor loss major gain
But if we're apart take the plane there
If I got plans, you got plans
I got bags, you got bags
Ey yeah Just put your trust in me
I want full custody

I found happy yeah and she's beautiful
Now I'm happy yeah so beautiful that's beautiful
I found happy yeah and she's beautiful
Now I'm happy yeah that's beautiful so beautiful

I call your mum, mum too
Your mom calls me son too
Your my only one who's
Been my only one two
And that's like touch and go babe
More like York and [?]
Call your favorite rapper
Too young fire old flame
How can I write a verse when I'm loss for words
How can one get the gift and not get the curse
Oh when love means the world it don't leave me hurt no
Coz this little heart of mine if it breaks in two it will break in four
Coz I ain't been healed from the break before
And I trust in you like you trust the Lord
And we pray together, if we break together
Our right arms dislocate forever
We decorated this place together
These His and Hers Tees got made together
So don't keep saying I lack in communicating
Your free to make it better
We don't live we life together
I'm gon treat you right forever
Baby it's all or nothing, gimme all your something
If you stand for free then you fall for nothing

I found happy yeah, she's beautiful
Now I'm happy yeah so beautiful that's beautiful
I found happy yeah, she's beautiful

Now I'm happy yeah that's beautiful so beautiful

Got my eyes on you, look at the smile on you
All night you crawled by now look at the size of you
This is all I do, this is all my truth
Called you sky coz all my life ain't seen a sight like you
So take me higher
Even when you couldn't talk, you still said dada
It was never yes or no, it was always ya ya
Even though I'm somewhere else, your still my baba
I'm just not the mama
And despite what you knew, this is what you drew
One big house with mum and dad and your big brother too
We didn't see that through and I apologize to you
Coz your my world, my sun and sky I'll never rain on you
Yeah
