

Let It Out

Wretch 32

I don't hold my tongue for no one
I ain't gonna hold it down, no, if I wanna say something, I'm gonna say something
I don't hold my tongue for no one
I'm gon' let it out, yeah, that's what I'm about, yeah
I said I don't hold my tongue for no one
It's better off out than staying in, I'm gon' let you know what state I'm in
I said I don't hold my tongue for no one
I gotta let out my feelings, that's how I'm dealing so

Let it out, let it out
Let it out, let it out
Let it out, let it out
Said let it out, let it out

I'm class, that's one of the best in the UK
So underrated, the mainstream's new craze
And certain man are married to the game
But what I say goes over their heads like a bouquet
It's a new dawn, it's a new day
New faith, Double's like a Mercedes new shade
It's bait that I had [?] before curtains
So don't leave your girl round [?], that's too bait
I'm extra extra, read all about it
They say they're better than the Double but I doubt it
Since 04, Double S, I've been about it
Even lost the flow for a second but I found it
But I found it, it can go on for hours
Nah, this is my house and I wear the trousers
When I'm on the riddim I conquer, right
I run the site, it's nothing but nuclear showers

Listen, look, if I ain't spit it out, I wouldn't be spitting now
I could've been chilling out in the ends, sitting down
And now I'll be thinking out of the box, voices
Should I get a house or a watch? Choices
Cause I've been about on my job employing people
Now they work for myself, me too
Independent, statute pose
The Lord blessed me with a [?] flow
I'm peanuts for that cashew dough
My DNA won't match you clones
Cause I set goals and I score em
And I wreck shows when I'm touring
Look, if in doubt
You shouldn't hold it in, just (let it out)
