

Spin Around

Wretch 32

We live golden
Still the chain and the watch, dem frozen
And the table, it cost ten thousand
We're up, up, up and we nah step down and
Step down and live golden
Still the chain and the watch, dem frozen
And the table, it cost ten thousand
We're up, up, up and we nah step down and

Tryna find a message in a bottle, Crystal
Drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Tryna find a message in a bottle, Crystal
Drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Spin around

From the circle, I'm circlin' the Benz
Late nights, we were circlin' the ends
Doin' donuts in the circle with my friends
Tryna make the kingsmeal
That's how you circulate the bread
God's gift on stage, moshpit
You ain't seen a bigger circle in the flesh
Saw her cuttin' shapes
I had to spin around, circle for the head
Spin around, spin around
Call me karma 32, yeah, I've been around
All it takes is one shot, that's a throwback pitcher
I'm just hoping you can hold that liquor

Tryna find a message in a bottle, Crystal
Drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Tryna find a message in a bottle, Crystal
Drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Spin around

I'm on stage too much, hope you wait for me
I don't pray too much, hope you pray for me
It might break us up so unfaithfully
It won't take too much, let me take the lead
Wait
Before you run away
If you can find someone to replace
I'm a great
Skeppy's from my way
Bad energy stays far away (Far away)
Don't push away, just push pon it
Peace sign pon this bonnet
Don't push your luck, push to start

Tryna find a message in a bottle, Crystal
Drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Tryna find a message in a bottle, Crystal
Drink, drink 'til my liver drip down
Spin around, spin around, spin around
Spin around, spin around, spin around
Spin around

We live golden
Still the chain and the watch, dem frozen
And the table, it cost ten thousand
We're up, up, up and we nah step down and
Step down and live golden
Still the chain and the watch, dem frozen
And the table, it cost ten thousand
We're up, up, up and we nah step down and
Step down and
