This promise conceived us something so unbreakable
has managed to turn out so fashionable.
Give in to the crowd
(one day you'll have this all figured out).
This hunger that turns out to burn out so easily
somehow has gotten the best of me.
Give in to the crowd
(one day you'll have this all figured out).

[Chorus]
Is it worth it?
Come faithful and strong
Where's the purpose
I've been here all along
One day we'll have this all figured out
One day we'll have this all figured out
I'm so tired
Find rest in my arms
Where's your promise?
I've been here all along
One day we'll have this all figured out
One day we'll have this all figured out

Be patient, my friend
redemption draws nigh
this could take all night
I'm not ready for this
(I'm so selfish)
cause nine out of ten
I'll do what it takes
to save my skin

Come follow...
Come follow me

[Chorus]
I'm not ready for this
(I'm so selfish)
cause nine out of ten
I'll do what it takes
to save my skin

I'm so tired of this, I'm so tired of this
Come and give me rest, come and give me rest

Good, faithful, servant
job well done.
Oh precious Jesus
you're what I needed all along
