

Genius

Written By Wolves

She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh

Scream my name
Hold your hand to the flame
Keep it there as long as you can stand but don't forget it's a game
It's such a shame
That you bear the blame
But seize your opportunity to pounce and baby I'll do the same

Won't you tell me all your secrets about
How you exploit their weakness
I think you're a fucking genius, ah, ah
So now my dear, it's just a matter of time
So buckle up
Because you'll soon become my partner in crime, ah, ah

She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh
She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh

You're so vain
But no one stares at your brain
So with that thought in mind I think we banish any plans to abstain

Won't you tell me all your secrets about
How you exploit their weakness
I think you're a fucking genius ah, ah
And now my dear, it's just a matter of time
So buckle up
Because you'll soon become my partner in crime ah, ah

(Let's go!)

She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh
She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh

So let's go light up the night, yeah tonight, just you and me
Light up the night, oh tonight, just you and me
Light up the night, oh tonight, just you and me
Light up the night, just you and me

She got my heart beat out of control
She had me at 'hello'

And set my world to b-b-blow
So baby light it up and let it go, oh, oh
She got my heart beat out of control
She had me at 'hello'
And set my world to b-b-blow
So baby light it up and let it go, oh, oh
