Lights

Written By Wolves

Darkness falls in a place you once called home
With each fleeting ray of sunlight
You find you're feeling more alone
You're left searching for
The sparkle in your eye
The faintest flicker of a flame
To remind you you're alive

Don't let the light burn out inside of you
I won't let the light burn out inside of you
The darkest days and the longest nights
Light up with just a spark
I won't let the light burn out inside of you

Remembering back
To a time not long ago
But all that's left is ashes
Blackened memories turned to coal
But embers glow
And if you blow
You can make fire out of dust
And we'll be there
To stoke the flames
And watch the night light up

Don't let the light burn out inside of you
I won't let the light burn out inside of you
The darkest days and the longest nights
Light up with just a spark
I won't let the light burn out inside of you

But if you lose the light
And you can't fight
The feeling all is lost
And the whispers in your head
They turn to screams
And just won't stop
Just know that we'll be here
To help the fire inside break through
I won't give up
I won't give up
On you

I won't let the light burn out inside of you
The darkest days and the longest nights
Light up with just a spark
I won't let the light burn out inside of you

Don't let the light burn out inside of you
I won't let the light burn out inside of you
The darkest days and the longest nights
Light up with just a spark
I won't let the light burn out inside of you

Don't let the light burn out inside of you
I won't let the light burn out inside of you
The darkest days and the longest nights

Light up with just a spark
I won't let the light burn out inside of you
