

## Start The Fire

Written By Wolves

Tell me what you want to hear  
I'm sick of trying to write the music to your ears  
Tell me where you want to start  
I'm sick of trying to fire this arrow through your heart

And I know you didn't start the fire  
But you saw it and just let it burn  
And you know, you know that's almost worse

And I'm so damn tired of putting  
All these fires out  
And I'm so damn tired of putting  
All these fires out
