

The Lighthouse

Written By Wolves

Everybody's tired, a little broken and depressed
Everyone's got something, they need off their chest
Everybody's anxious, on the verge of breaking down
Everyone is lost sometimes
Hoping they'll be found

Look for the lighthouse
It'll guide you home
A beacon in the darkness
The light is always on
Look for the lighthouse
You're never too far gone
No matter what the distance
The light is always on
And it'll guide you home

Everybody's scared
That maybe they're alone
We're weak to show emotion
So we just turn to stone

And everybody's angry
And it feels like no one cares
But every single one of us has been burnt so many times
It don't seem fair

But if everybody's trying to get home
Then we can't be all alone
If everybody's trying to find their way
And we just wanna be ok
We can't be on our own
Oh on our own

Look for the lighthouse
It'll guide you home
A beacon in the darkness
The light is always on
Look for the lighthouse
You're never too far gone
No matter what the distance
It'll guide you home

I
Don't
Want
To be alone
I
Need
You
To guide me home

I
Don't
Want
To be alone
I
Need

You
To guide me home

Look for the lighthouse
It'll guide you home
A beacon in the darkness
The light is always on
Look for the lighthouse
You're never too far gone
No matter what the distance
It'll guide you home

Look for the lighthouse
It'll guide you home
A beacon in the darkness
The light is always on
Look for the lighthouse
You're never too far gone
No matter what the distance
It'll guide you home
