

Brainsick

WSTR

Ulterior motives sinking in
How gullible do you think I can get?
You state you're not like the others
Then show your true colours
Intentions glow with a shade of red
I avoid 3 grids 'cause of times like this
Now know full well that you don't give a shit
About the state that I'm in or the risks that I'm taking
Turn a blind eye and forget it

Embrace the sitch and start your healing
Flip the switch control your feelings

You're just another example of a brainsick type
And you claim you're right too
Crush my heart when you trample on my fragile mind
'Til I run and hide
I take another gamble like the freak that I am
With these thoughts that I have
You analyse every angle
Look inside these bloodshot eyes and still expect lies

I'm done with this
Doing 90 on the motorway my CD's on
Blasting fucking break up records one by one
Friends sit back and laugh at the way I've become
And what I'm running from

Another accusation
I'm outta here not worth my time
Hand in my resignation
This boy will never fall in line

You're just another example of a brainsick type
And you claim you're right too
Crush my heart when you trample on my fragile mind
'Til I run and hide
I take another gamble like the freak that I am
With these thoughts that I have
You analyse every angle
Look inside these bloodshot eyes and still expect lies

Things that only we know
Still better left unsaid
Of how I fed your ego
In this mess that I regret
You were the best
You were a 10
But the shift that I put in
Clearly didn't mean anything

Nah, nah fuck that

You're just another example of a brainsick type
And you claim you're right too
Crush my heart when you trample on my fragile mind
'Til I run and hide

I take another gamble like the freak that I am
With these thoughts that I have
You analyse every angle
Look inside these bloodshot eyes and still expect lies

Another accusation (Things that only we know)
I'm outta here not worth my time
Hand in my resignation (How I fed your ego)
This boy will never fall in line
