

Riddle Me This

WSTR

Scream and shout till I pass out
See to my drought till I feel no more
One more shot, cherry on top
Fuels my inner demon
Knocked it back till I see black
A body relaxed talking to the floor
Rest assured, I can do more
But I guess I should be leaving

I wanna carry on, carry on shocking
Carry on, carry on

Hey now, riddle me this
Beneath this wrist is a pulse
That needs to slow down
You're my edge
I run the risk
Of falling underground
I'm down, I'm out
I'm like one more puddle
Off the drop, fell south
There's no signs of giving up

We took a big hit
We started feeling it
Let's float away
Come with me, we'll take a free ride
On a backslide
Till it's our time
I'll show you everything I can't hide
Under moonlight
We're the deadlight

I wanna carry on, carry on shocking
Carry on, carry on
We'll carry on till we're all running
Carry on, carry on

Hey now, riddle me this
Beneath this wrist is a pulse
That needs to slow down
You're my edge
I run the risk
Of falling underground
I'm down, I'm out
I'm like one more puddle
Off the drop, fell south
There's no signs of giving up

We're gonna carry on, carry on shocking
Carry on, carry on
We'll carry on till we're all running
Carry on, carry on

Hey now, riddle me this
Beneath this wrist is a pulse
That needs to slow down

You're my edge
I run the risk
Of falling underground
I'm down, I'm out
I'm like one more puddle
Off the drop, fell south
There's no signs of giving up
There's no signs of giving
