

Free Your Mind

WSTRN

All we really need is love
All I really have is love for you

When we work as one
Anything, we can overcome
And all these weights tryna hold me down
But my spirit keep me up
We are not afraid
They will never understand all the pain and the struggle
I just hope and prayed
We'd get through all this rain
No more tears, no more trouble

'Cause faith is all we have, faith is all we have
Free your mind from all of it
Even though we part of it
Free your mind
All we know is love and unity
Maybe that is all we need
Free your mind

Yo, listen, yo, yo
If you don't love yourself, can't love nobody else
Takes one to know one, you're troubled, I can tell
You need to look within your mind, focus on the health
Until you free your spirit, your body's still in hell
I know your body's being held, is it solemnly compelled?
Or were you drowning out the heartbreak you inflicted on yourself?
Split second, camera come alive, field stressin'
Think about it 'fore you go out freein' up yourself
Ain't nobody perfect, just be a better version
Of the person you was yesterday, closer to your purpose
Closer to your dreams
The green grass isn't always what it seems
Feel the motion and the swaying of the breeze
But keep your feet firmly planted like the trees
You know what I mean? See
'Cause faith is all we have and need
Faith is all we have

Faith is all we have, faith is all we have
Free your mind from all of it
Even though we part of it
Free your mind
All we know is love and unity
Maybe that is all we need
Free your mind

Free your mind
One time, free your mind
Ayy, free your-
That's, that's, that's right
That's right
Ayy
