Yeah, pump that shit, testin
Check, 1,2, yes, yes, yes
Yes, yes y'all, to my niggas y'all
To my click y'all, you can't quit y'all
Wu-Tang bangin' that dope shit y'all
That make you wanna roll up and smoke shit y'all
To the beat y'all, you can't sleep y'all
On my flow y'all niggas don't know y'all
You see my style calm but wild
You witness the rhyme, nothin but dimes
The eightball murder verse, freestyle or rehearsed
I wreck emcees whether I'm last or first
What, what, what, what, hazardous dart
Visual long forgotten art
That fell apart, til the blood ran from the heart
Pump through the street, Rza make re-break beats
Packed seats, rapid fire raps at off track meets
And an arm tank, high rank, heavy metal shank
Blow 'em off the plank when they ships approach the bank
Wu niggas rollin, throwin the first rap slogan
Heroes of Hogan, shot up the military clothin'
Quickly blow up, rolled up in rappers like pennies
My brother stack tracks on the behalf of many
With the wisdom, power of, science from experts
Self applyin, that put giants in the network
The compact disc and televised live cults
Will multiply our strength, on a worldwide note
Yes, what, what

Yes, yes y'all, you don't stop
You keep on, til the break o dawn
Ah yes, yes y'all, you don't stop
Ah Wu-Tang known to make your body rock
