

# Seen A Lot Of Things

Wu-Tang Clan

Yeah  
Yo

Expedite lyrics under a godly spirit  
Thoughts forced to hang-glide  
Even a bird can hear it  
A bald head with gold metal wings  
Look like it belong in a day  
The coming of Christ  
Worshippin' the Elohim  
That's the way I wear shades like CeeLo Green  
It's darker than Don Cheadle  
We're mean like his deleted scene  
The prognosis, divine opus  
Artistic third eye open, it leave you stuck in a psychosis  
Or the haemo-tosis  
Spit venom like a African cobra in the jungle  
Knowin' my tongue is vulgar  
I raise the Wu flag when they scream for glory  
The clouds open, a beam of light, you hear my story  
Custom-made scrolls, handwritten in coffee  
And feather-tip pens one of the prophets brought me  
And that explains why I spin on the axis  
Born original, so my mind fades to blackness

Seen a lot of things, don't talk about it  
I can't live without my faith, so I don't walk without it  
God, I know you led us to do better on this road  
On this road, yeah, yeah, yeah, yeah  
Seen a lot of things, don't talk about it  
I can't live without my faith, so I don't walk without it  
God, I know you led us to do better on this road  
On this road, yeah, yeah, yeah, yeah

Pledge music, we came up from bringin' out club music  
Acoustic jungle rap gave us all this project music  
Blood in it, plug niggas get you mugged in it  
Steel with steel, I'm finally out the drug business  
Kneel proper for me, helicopter base, sage in it  
Lessons from professors on stage winnin'  
Nine swords, 36 Chambers  
It's like a chess board, keep slidin'  
Opponents get flamed on it  
Trainin' poems, been the Game of Thrones  
We been raised and grown  
These young boys come through, spray your home  
Facts, they gave me the ax, now lay it on me  
Criminals have to eat, it's facts, shorty  
You're damn right I go the square miles  
We're from the stairs, thousands of pens could hear us from the rare sounds  
Yeah, the Phoenix comin', ten Arabian Staten-adians  
Who hooded up, known to get it bouncin'

Seen a lot of things, don't talk about it  
I can't live without my faith, so I don't walk without it  
God, I know you led us to do better on this road  
On this road, yeah, yeah, yeah, yeah

Seen a lot of things, don't talk about it  
I can't live without my faith, so I don't walk without it  
God, I know you led us to do better on this road  
On this road, yeah, yeah, yeah, yeah

Seen a lot of things  
I can't live without my faith  
God, I know you led us to do better on this road  
On this road, yeah, yeah, yeah, yeah
