

# Know That I'm Here

Wulf

Yes, through the fears  
Those ghosts under your bed  
Don't waste your tears  
We'll give 'em names  
Those monsters in your head  
They'll fade away

When you're falling, falling deep  
Baby baby tell 'em, tell 'em bye bye bye  
To the demons in your sleep  
Baby baby tell 'em, tell 'em

When your heart is blown  
Na na na na know that I've here for you  
Know that I've here  
When your mind is broke  
Na na na na know that I've here for you  
Count on me to throw you a lifeline  
Just n-n-know I'ma shine a light for you  
When your heart is blown  
Na na na na know that I've here for you  
Know that I've here

(Na na na na know that I've here for you  
Know that I've here)

Backs to the fall  
Bruised up and out of breath  
But we'll beat them all

When you're falling, falling deep  
Baby baby tell 'em, tell 'em bye bye bye  
To the demons in your sleep  
Baby baby tell 'em, tell 'em

When your heart is blown  
Na na na na know that I've here for you  
Know that I've here  
When your mind is broke  
Na na na na know that I've here for you  
Count on me to throw you a lifeline  
Just n-n-know I'ma shine a light for you  
When your heart is blown  
Na na na na know that I've here for you  
Know that I've here

Yeah  
(Na na na na know that I've here for you  
Know that I've here)

When you're falling, falling deep  
Baby baby tell 'em, tell 'em bye bye bye  
To the demons in your sleep  
Baby baby tell 'em, tell 'em, tell 'em, tell 'em  
Tell 'em, tell 'em, tell 'em, tell 'em

When your heart is blown

Na na na na know that I've here for you  
Know that I've here  
When your mind is broke  
Na na na na know that I've here for you  
Count on me to throw you a lifeline  
Just n-n-know I'ma shine a light for you  
When your heart is blown  
Na na na na know that I've here for you  
Know that I've here

(Na na na na know that I've here for you  
Know that I've here  
Na na na na know that I've here for you  
Na na na na know that I've here for you  
Know that I've here  
Na na na na know that I've here for you)  
Know that I've here
