

## Misfits

Wulf

Feel a little homesick, I've only been gone for a while now  
These hallucinations kinda start to look like your smile  
(Let's go)

In this world we might feel lost  
It's easy to forget (That's right)  
We're undivided, can't deny it  
I'm loving it

How we make sense when we're together  
(Like birds and the trees, believers and dreams)  
Yeah, we make sense when we're together (Ah)  
(Like flowers and bees, kings and the queens)  
We are the misfits trying to fit in  
How we make sense when we're together  
(Like flowers and bees, kings and the queens)

Thought I was the only one who couldn't figure it out, yeah  
But now it's clear to see everybody is just running around  
(Come on) Running around

In this world we might feel lost  
It's easy to forget (Uh-huh)  
We're undivided, can't deny it  
I'm loving it

How we make sense when we're together (That's right, come on)  
(Like birds and the trees, believers and dreams)  
Yeah, we make sense when we're together (Ah)  
(Like flowers and bees, kings and the queens)  
We are the misfits trying to fit in  
How we make sense when we're together  
(Like flowers and bees, kings and the queens)  
We are the misfits trying to fit in  
How we make sense when we're together (You, we make sense together)  
(Like flowers and bees, kings and the queens)

Yeah, we make sense when we're together  
Like birds and the trees, believers and dreams
